

Academic Real-World Evidence Showcase

*Introduction to the diverse research
programmes that will be showcased*

Chair: Dr. Serena Di Cosimo, DIGICORE Academic Research Manager
Thursday 4th November 08.45-13.00

Presenters in the session this morning

08.55 - 09.35 am

Professor Geoff Hall

Senior Lecturer in Medical Oncology and Cancer Informatics, Leeds Teaching Trust Hospital, UK

The state of the art in multi-country European Cancer RWE

The Ovarian Real World International Collaboration (ORWIC) as an example of enhanced from EMR, multi-center, multi-country natural history and outcomes study run without study specific consent or the sharing of patient level data

09.35 – 10.10 am

Martin Peuker

CIO, Charite, Berlin, Germany (Martin Zuenkeler presenting)

A view from Germany

Charite Berlin has taken a two value strategy, co-developing a data lake (including broad but less high quality data for exploratory use), with a medical device platform (including key data needed for regulatory grade uses such as care delivery or translational research on regulated products)

10.10 - 10.45 am

Professor Pier Giuseppe Pelicci
Chairman and Executive Director,
Istituto Europeo di Oncologia

A View from Italy

Learning from the experience of networking expert centres for the treatment of rare solid tumour

11.30 – 12.05 pm

Anne-Laure Martin

Director, Data and Partnerships Department at UNICANCER (Lise Bosquet presenting)

A view from France

The French Epidemiological Strategy and Medical Economics (ESME) database and the UNICANCER experience
